

Bearded Iris

CALGARY
HORTICULTURAL
SOCIETY

Common Name: Bearded Iris
Botanical Name: (*Iris germanica*)

Height: 16 - 30" (41 - 76 cm)
Width: 10 - 24" (25 - 61 cm)
Exposure: Full Sun
Zone: 3
Bloom Time: Mid May - Mid June
Description: Flat, fan-like leaves grow from rhizomes. Flower stalks emerge from the leaves bearing large ruffled flowers. Blooms are short lived but spectacular. Drought tolerant once established, deer resistant.
